

MARC BIBLIOGRAPHIC TO RDA MAPPING

MARC 21 Format for Bibliographic Data Mapped to RDA Elements

The table below maps MARC 21 bibliographic elements to the corresponding RDA elements. With the exception of the Leader, control fields (00X) and control subfields (\$0-\$8), all MARC 21 fields and subfields are included. Those elements that have no equivalent or are beyond the scope of RDA are indicated as N/A (not applicable).

While there are many instances where there is a one-to-one correspondence between MARC 21 and RDA, there are cases where the level of granularity in the MARC 21 element set and RDA element set differs. Where a single MARC 21 element is equivalent to more than one RDA element, all applicable RDA elements are provided.

MARC 21 FIELD TAG	MARC 21 SUBFIELD CODE	MARC 21 FIELD / SUBFIELD NAME	RDA INSTRUCTION NUMBER	RDA ELEMENT NAME
<i>01X-09X</i>		<i>Number and code fields</i>		
010		Library of Congress control number	N/A
